KALABRONE

KALABRONE

KALABRONE is the new shelf support for free-standing shelves created by Italiana Ferramenta Srl. Boasting a captivating design, it perfectly meets the actual market demands. It is suitable for shelves from 8 to 30 mm thick. Its solid structure guarantees a capacity loading of 25 kg for each support with a shelf 320 mm deep.
KALABRONE comes with 2 adjustments:
- Vertical: through the oval hole positioned on the upper bracket
- Front To Back: through an adjustable screw positioned on the main support
The soft element made of engineering plastic positioned on the upper bracket guarantees a perfect adhesion to the shelf, thus a voiding that the shelf is accidentally removed.

REGISTERED DESIGN

Part. no	Finish	Engineering plastic
16220010JM	aluminium RAL 9006	white
16220010YD	satin-finished nickel-plated	white
16220010KB	bright chrome	white

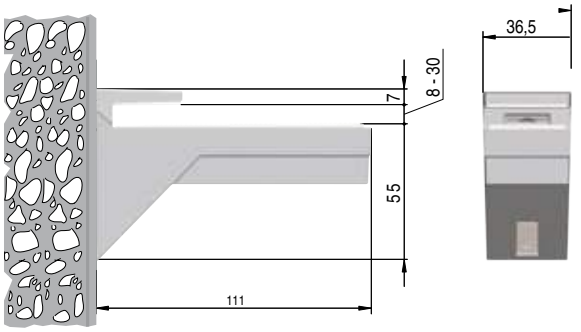
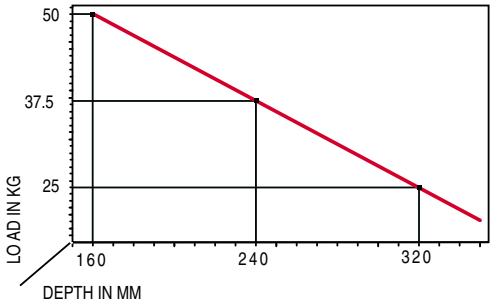
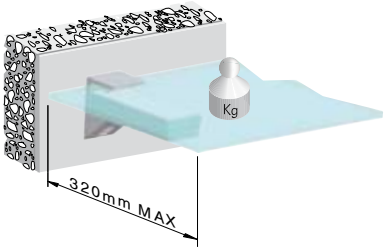
FIXING TO CEMENT WALL WITH RAWLPLUG



It is the responsability of the customer:
- to ensure that the wall is of a suitable quality to hold the shelf fixing in place.
- to use the right hardware fitting as required.

COMBINATION SHELF LOAD AND SHELF DEPTH
(The figures refer to 1 shelf support)





+ shelf weight = 25 Kg MAX
